

BUDGETA

Transforming business planning, budgeting, and performance management by empowering businesses of all sizes to plan faster, smarter, and more collaboratively.

THE PROBLEM

Financial Planning and Analysis (FP&A) is a critical business activity for every growing and dynamic business. Unfortunately, the tools and processes available to business and budget owners are broken. Millions of businesses rely on general-purpose solution to do a functionally-specific job. Tools such as Excel and Google Sheets lack the error detection, version management, collaboration and extensibility needed to be a compelling budgeting solution

BUDGETA, THE SOLUTION

Get up and running fast		BUDGETA
▼	Time to Value	● (hours)
An accurate and detailed representation of my company	Ease of Use (General Business Users)	●
▼	Self-service Try and Buy	●
An ability to collaborate and communicate	Building an Initial Budget	●
	Pre-packaged templates & statements	●
	Sharing & Collaboration	●
	Adaptability & Customization	●

In the US alone, there are 2 million small and medium enterprises (10-250 employees) needing to budget, forecast and plan their businesses. Their needs are straightforward ... they want a solution that gets them up and running quickly, provides an accurate and detailed representation of their businesses and allows for collaboration and communication across functional and corporate boundaries.

It is for these businesses, and to solve this gaping unmet need, that we created Budgeta.

UNBOUND SIMPLICITY

Budgeta makes it easy to build, collaborate, and share accurate budgets that are as easy to interpret as they are to create and maintain. Budgeta will amaze you with insights that give you the complete financial trajectory for your business. With Budgeta, everyone has access to fresh, reliable data - making it easier to drill deeper, ask more, and share easily.
