BizNet Software®

BizInsight powers a suite of reporting solutions.

Self-service reporting and analytics, directly connected to Excel, shareable with everyone.

The BizInsight Excel Suite is made for managers, analysts and all department users. Connect to and use all your data to create and update spreadsheets. Get real time access to all your data, no matter where it resides. Aggregate and analyze information, make up-to-the-minute informed decisions, create timely and accurate reports, and distribute them all inside Excel.

Simple

- 100% Excel
- Eliminates copy and paste

Powerful

- In-memory caching – no data warehousing
- Drill down to transaction level
- Package supporting data with reports
- Use BizConnectors to extend capabilities and connections

Easy to Use

- Plug and play content
- Drag and drop report building
- Use existing spreadsheets
- No additional hardware needed
- Build reports in minutes

BizInsight 7™

Analyze. Slice, dice your data in Excel. Write your own formulas and functions. Save your favorites and reuse them.

BizConnector™

Connect. Pre-built connections to all your system data and beyond. Drag, drop and start working in Excel.

BizBroadcast™

Share. Send hundreds of reports to anyone on your list. Automate time, delivery format, and customize messages. All in Excel.
