

Reduce Your Workload With Expensify and Intacct

Employees quickly and easily submit expenses and their reports are automatically checked for policy compliance. With just one click, admins can effortlessly export data to Intacct.

Simplify Your Expenses

Update your manual accounting processes with the Expensify-Intacct integration! Our direct integration cuts down hours of manual data entry and makes it faster than ever to review expenses, reimburse employees, and close your books each month.

Expense it with Expensify

Take the time, paper, and headaches out of your expense reports. Use the Expensify app to upload receipts and import bank or credit card transactions. Expensify SmartScans the receipts, pulling in the merchant, date, and amount, automatically creating an expense for users and eliminating manual entry.

Admins can rest easy knowing that reports are automatically checked for policy compliance, leaving less room for human error and oversight when approving reports.

Import Intacct Chart of Accounts

Our direct integration pulls in your company's Intacct expense accounts and dimensions with one click, allowing users to easily organize expenses using Expensify's mobile or web app.

Seamless Intacct Integration

Exporting expenses to Intacct has never been easier. Our direct integration enables users to export approved reimbursable expenses as expense reports, and non-reimbursable expenses as credit card charges. Save time with Expensify's bulk export and process your entire company's expenses with one click!
