

Simplify Expense Management for Your Business

Integrate seamlessly with ExpensePoint's powerful expense management platform. This comprehensive solution saves time, reduces errors, and provides complete visibility into your business spending—all within the systems you already use.

Slash Reconciliation Time with your ExpensePoint Integration

Simplified Reconciliation

Streamline your reconciliation process with automatic expense categorization using your merchant codes and one-click approvals, transforming time-consuming tasks into quick, accurate workflows.

Seamless Reimbursements

Approved expenses automatically flow to your systems, eliminating manual data entry and reducing processing time.

Unified Banking Information

No need to collect and store banking information in multiple systems, enhancing security and simplifying administration.

Automatic GL Allocation

Automatic and custom GL mapping streamlines your accounting processes and ensures accurate financial record-keeping.

Automatic Credit Card Integration

Experience seamless daily synchronization of your credit card transactions that instantly attaches receipts to matching transactions, automatically categorizes them and notifies your users.

Reliable Receipt Reading

Just take a picture, and ExpensePoint does the rest using machine learning verification for unmatched accuracy—automatically detecting errors, scribbled amounts and tips.

Multi-Language & Multi-Currency

Access expense reporting in 14 languages including English and Spanish, with support for 100+ languages and 150+ currencies.

Mileage Tracking

ExpensePoint MileageTracker™ uses GPS to track routes or create mileage expenses with a single swipe, automatically applying your correct mileage rates.

Streamlined Accounting

Export directly to leading accounting platforms while gaining detailed spending insights and analytics. Accelerate your month-end closing process and make financial management effortless.

Workflow & Policy Management

Manage dynamic workflows from single to multi-level approvals with customized expense policies.

Live Reporting

Access 36+ real-time management reports that provide complete visibility into your company's spending patterns and trends. Stay audit-proof with comprehensive financial data at your fingertips.

Mobile & Web Access

Track expenses in real-time across all devices with full-featured mobile apps for iOS and Android, creating reports from anywhere.

Security & Compliance

Benefit from SSAE 18 (SOC II) certified, PCI-DSS compliant, and GDPR compliant, ensuring your data is safeguarded at the highest level.

Simplify System Integration

Connect seamlessly with over 150 accounting, ERP and banking integrations including QuickBooks, SAP, Sage and NetSuite. Keep your expense data flowing effortlessly across all the systems you rely on daily.

Premium Customer Service

Access dedicated support from North America-based representatives who understand your business needs and tax requirements, in both English and French.
