

# EUNA Budget Pro

Align Every Dollar to the Outcomes That Matter

Plan with intention, connect spending to priorities, and deliver measurable impact — all in one solution.

## Streamlined Workflows and On-Demand Reporting

Reduce manual work and encourage collaboration across teams and programs for more efficient, transparent budgeting.

## The Most Trusted Budget Solution

For over 26 years, we've helped mission-driven teams simplify budgeting, connect resources to priorities, and strengthen their communities.

## Committed to Your Long-Term Success

We build lasting partnerships that support innovation, share best practices, and help your team stay focused on what matters most.

## Everything You Need to Plan, Build, and Share Your Budget

A solution that simplifies the full budget cycle from strategic planning to reporting and community transparency. With intuitive, easy-to-use tools, you'll uncover insights that help your nonprofit deliver on its mission.

# Purpose-Built for Mission-Driven Organizations

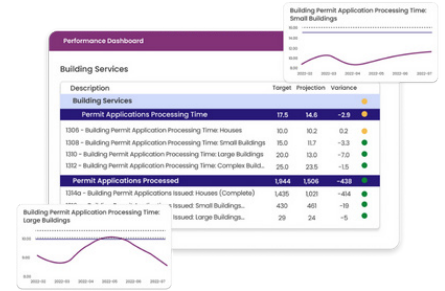

A flexible, configurable solution that helps your nonprofit align strategy, plan with purpose, and communicate your impact clearly.

## PLAN

### Turn strategy into action

Align your budget with your nonprofit's goals using tools that help set clear objectives and track program outcomes.

- ✔ Strategic Budgeting
- ✔ Performance-based Budgeting

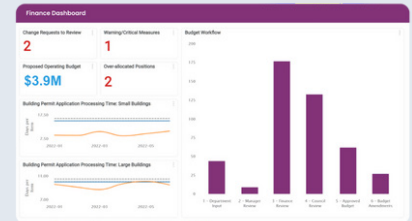

## BUILD

### Create accurate, flexible budgets

Simplify budget creation with collaborative workflows, forecasting, and intuitive tools for any funding type including programs and grants.

- ✔ Personnel Budgeting
- ✔ Operating Budgeting
- ✔ Capital Budgeting

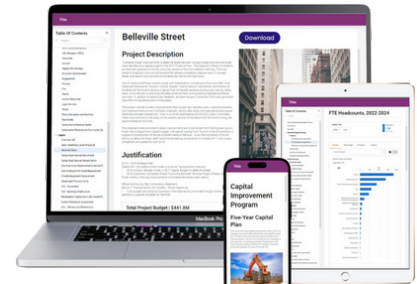

## SHARE

### Increase transparency and build trust

Use dynamic publishing to share your budget with boards, funders, and the community — from internal reports to accessible digital publications.

- ✔ OpenBook
- ✔ Budget Book Studio

With Euna Budget, we're able to make faster, more informed decisions. The improvements in accuracy, forecasting, and reporting have made a huge difference, and the integration with our financial systems has saved us hours of manual work."
