

Excel to the power of Datarails

The #1 AI-powered Excel-native financial solution

FinanceOS™

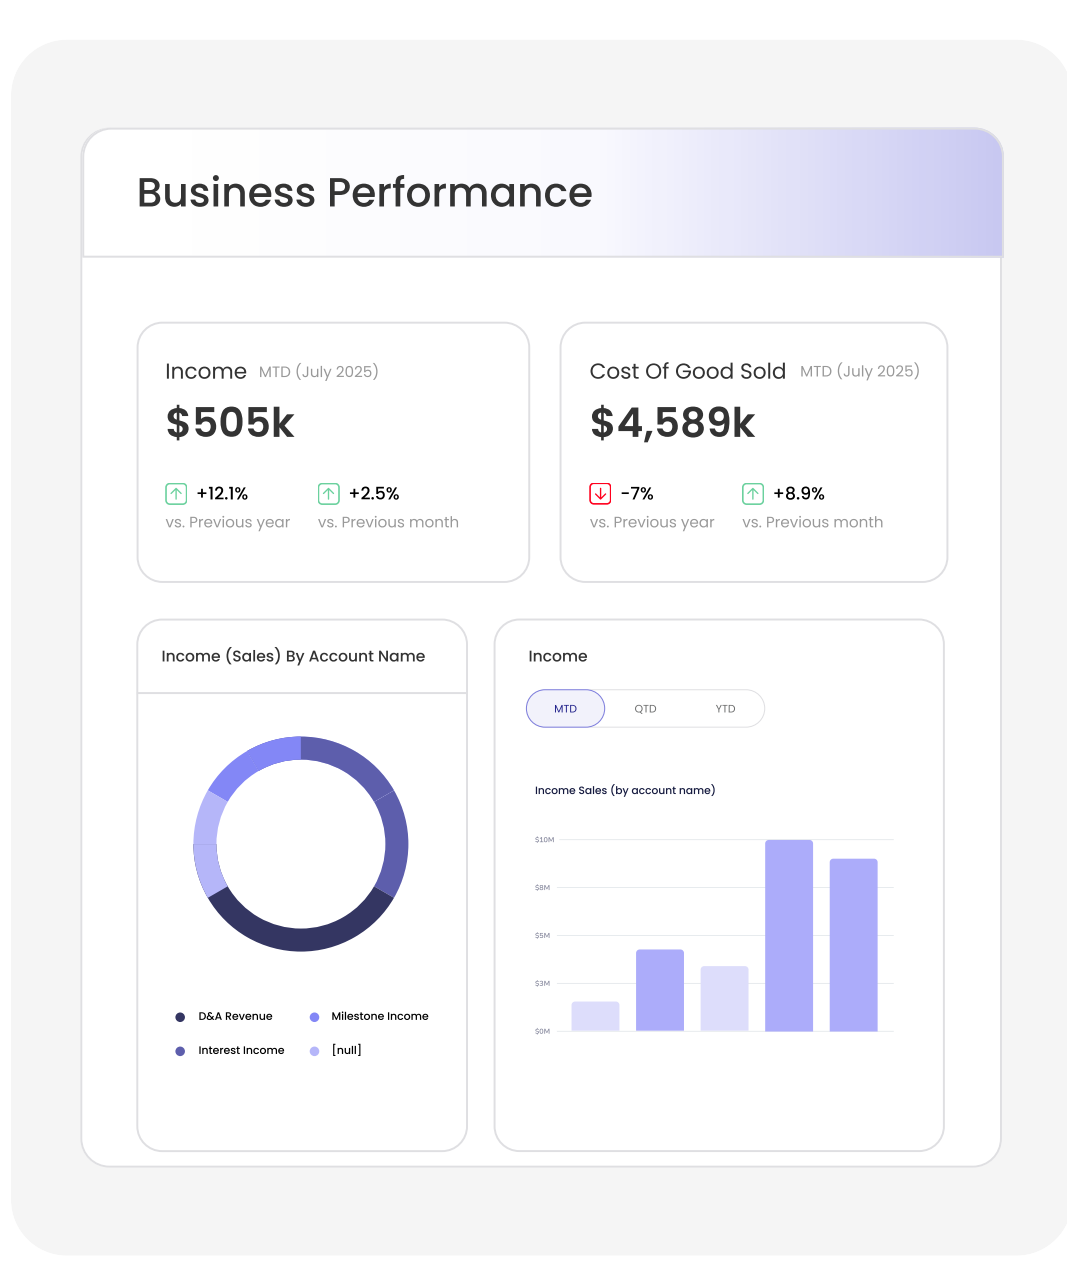

FinanceOS is an AI-powered self-service financial platform that provides advanced financial tools and a rich environment for building financial reporting, planning, and analyzing processes. It connects and syncs all previously disparate spreadsheets and data sources.

Why Datarails?

- Data Consolidation
- Financial Reporting
- Budgeting
- Forecasting
- Analysis
- Scenario Modeling
- Data Visualization

Where finance works smarter, not harder

Let your data tell the story

Get a quick grasp of a built-in visualization tool that's easy to learn, has immediate access to all your data, and integrates with other BI tools. Show stakeholders the business-critical KPIs at a glance and drill down into the underlying data in real-time.

Datarails AI

Spot trends, gain insights, and confidently share outputs with your team. Datarails AI agents are purpose-built financial experts that work together on top of your real, validated data. Chat with the agents to intelligently navigate your data, find answers quickly, and actively create instant outputs, including executive-ready presentations, variance analysis, and Excel reports.

What other finance professionals are saying about us

"Quick, Easy and Enjoyable. The visual representation of the data is stunning. The website and widgets for dashboard creation are user friendly. Its relatively easy to teach to the rest of the team."

Finance team member, Enterprise Customer

"The user-friendly interface of Datarails makes it easy to navigate and utilize its features. The intuitive design has significantly reduced the learning curve, allowing us to implement the solution swiftly. Customer support is great and support representatives have always been more than willing to help guide users."

Finance team member, Enterprise Customer

Trusted by enterprise industry leaders

Make the CFO's office the home of business insights
