

SoundPost Bridge

SoundPost Close with Confidence

SoundPost Bridge connects your AMS, eCommerce and finance systems with accounting-grade precision. Automates revenue recognition, track receivables, streamline reconciliations, and access the data you need.

Free your team from spreadsheets and reduce audit risk with a system designed to make your financial data clean, traceable, and automated from end to end.

Purpose-built for association finance teams.

Universal Connections

Connects your AMS, eCommerce, fundraising, and accounting platforms with pre-built connectors and native integrations.

Automated Posting

Ingests orders and payments from source systems, maps them to your chart of accounts, and generates balanced, auditable journal entries.

Revenue Recognition

Automates deferral schedules and recognition logic for memberships, events, sponsorships, and complex bundles.

Accounts Receivable Management

Tracks open A/R across all systems with aging reports and statements.

Real-time Reconciliation

Compares accounting system balances against source transactions.

Reporting & Analytics

Dashboards, exportable transaction details, and summary reports.
