

# Sage Intacct Integration

Cut costs and boost efficiency with full service AP automation

## Integrate Corpay AP Automation with Sage Intacct for seamless, intelligent processing

Corpay's API integrations let you easily automate data exchange with Sage Intacct, keeping your spend accurate, up to date, and in sync. Continue using your familiar ERP while allowing us to automate every step of the payment process from procurement to payment settlement, follow-up and reconciliation.

Through our intelligent software, we provide end-to-end efficiency that empowers your business to consolidate disjointed, manual payment processes into one simplified workflow. Whether you're looking to process all payment types — including check, ACH, and virtual card — in a single file, optimize payment methods for your vendors, or boost your bottom line with cash rebates, we've got you covered. What's more, our solution is mobile friendly, allowing users to review and approve payments on the go to keep business moving.

### Full service AP Automation Features

- ✓ Single-file payment processing for virtual cards, ACH and checks
- ✓ Customizable approval workflows, and active payment monitoring
- ✓ Payment settlement, reconciliation and follow-up
- ✓ One platform with a single user interface
- ✓ Network of 640k+ vendors accepting electronic payments

By modernizing your procure-to-pay process with Corpay and Sage Intacct, your company's AP department can maximize efficiency, mitigate risk, and even become a revenue generator.
