

# Connect Centage to Sage Intacct

Native integration with Sage Intacct brings your actuals into Centage automatically. Built for companies using Sage Intacct's powerful multi-entity capabilities.

[BOOK A DEMO](#)

## How It Works:

1

### Connect

Authenticate via the native Sage Intacct API with secure, credential-based access to your Intacct environment.

2

### Map

Map entities, dimensions, and your chart of accounts to Centage with intelligent auto-mapping suggestions.

3

### Sync

Actuals synchronize automatically in real time—multi-entity, multi-dimensional data flows without manual effort.

4

### Analyze

Plan, forecast, and consolidate across all entities using always-current Sage Intacct data.

## Integration Features

Everything you need to keep Sage Intacct and Centage perfectly in sync.

- Native API Integration
- Real-Time Sync
- Multi-Entity & Multi-Dimensional
- Auto Chart of Accounts Mapping
