kroo

Operationalize your data with best-in-class data solutions built for construction

Extract data from any construction software with Kroo Data Connectors

- ✓ Unlimited access to all commercially available endpoints managed by Kroo
- ✓ Custom data refresh configurations with comprehensive sync analytics
- ✓ Historical snapshotting to track changes to your data over time

Unify data from various systems in a Managed Data Warehouse

- ✓ Ongoing management & optimization of a data warehouse fully handled by Kroo
- ✓ Secure, enterprise-grade data storage and leading cloud infrastructure
- ✓ Available as a Kroo-Hosted or Customer-Hosted Data Warehouse

Integrate data between disparate systems with Kroo Data Syncers

- ✓ Reduce manual double data entry by keeping data in sync across systems
- ✓ Automated one-way and two-way data syncs powered by Kroo
- ✓ Secure, reliable data movement powered by leading cloud infrastructure

Search across data with Kris, your agentic coworker, and automate work

- ✓ Built on top of your data warehouse bespoke to your company
- ✓ Powered by Kroo's proprietary, unified data models layered with industry context
- ✓ Easily accessible via Microsoft Teams to use in the office or at the jobsite
