TRACEABILITY.
COMPLIANCE.
CONTROLS.

The success of your manufacturing depends on them.

LOCK IT DOWN, BABY.

You're battling on the front lines. Wherefour tackles your traceability, compliance and manufacturing control challenges to secure your success.
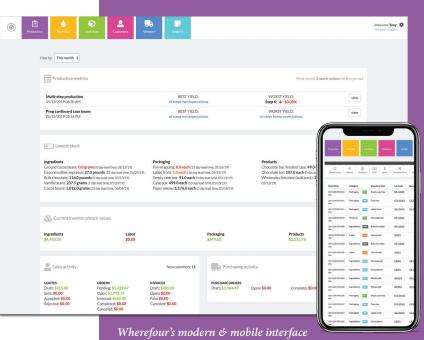

Traceability you can see. Track everything used in your manufacturing business: date, time, user, lot code, customer, and all associated costs. Generate full backwards to forwards reports with a button click.

Breeze through audits. Wherefour ensures every transaction is captured and correct, unlocking full reporting and total transparency for you and your auditors, inspectors and large accounts.

Manufacturing is king. Control production, manage costs, drive quality and safety, and know where everything is at all times with Wherefour. Affordable and modern traceability for any type of manufacturing.

Wherefour's modern & mobile interface

NOT YOUR 90'S ERP SYSTEM.

" The software is straightforward to build out and super simple to navigate. It is so easy to use that it saves us time in a lot of ways, including training new employees because it is not confusing or complex. We recently were audited by a customer with very stringent traceability requirements and demonstrated that we knew where all of the product went within five minutes. "

– **Allison Buell**, Compliance Manager
CHEVOO
Marinated Goat Cheese and Goat Cheese Spreads

" I kept looking for a better way to organize and trace our raw ingredients and manufacturing process and found Wherefour. When we have certification audits, the data is exportable and at our fingertips. What used to take a day, now takes two hours. "

– **Corrie Colbert**, Owner and Formulator
Hurraw! Balm

" We chose Wherefour as our ERP system because it's elegantly simple and does what we need efficiently. It has really helped with audit traceability exercises. We have what we need in five minutes with a click of a button, and you don't have to be an IT director to use it. Anyone from the shop floor or the chain of command can easily figure it out. "

– **Cheriene Griffith**, Vice President of Production
CannaCraft Cannabis Products

KEY FEATURES
