Criterion HCM is a cloud-based HCM platform that pairs robust enterprise-level functionality with mid-market pricing, beautiful design and extreme configurability.

Seamless integration with Sage Intacct

Extend the value of your Sage Intacct deployment by adding Criterion HCM's comprehensive payroll and time-tracking, talent engagement and HR modules, with seamless integration using REST APIs. Integrate payroll, HR and financial processes into one unified database for faster perfomance, more accurate reporting and decision-making.

Everything you love about Sage Intacct you'll love about Criterion

- Extremely configurable
- Cost-effective
- Hyper-secure
- True Cloud
- Flexible, scalable
- Easy-to-use
- Reliable, fast support
- Future-proof

Superior integration as standard

Integrates across dimensions, GL, employee records, multi-EIN companies, projects and tasks, timesheets and more. Criterion HCM auto-posts relevant transactions and integrates automatically across key fields for immediate data sharing.

- Maintain a single source of truth across your financial and HR systems of record, ensuring data integrity without versioning issues.
- Eliminate time-consuming, error-prone duplicate data entry and management across systems with one-click integration.
