Leverage K12 Finance Expertise

Support Teams Powerfully

Our team draws upon extensive prior experience to provide tailored consulting services and project-based staff augmentation for over-stretched finance teams

Partnership Structure

- Sign up anywhere from one to all schools within your district
- Unlimited number of user licenses at the central office and licensed schools
- Priced per student enrolled at licensed schools
- First school free during 60-day trial period!

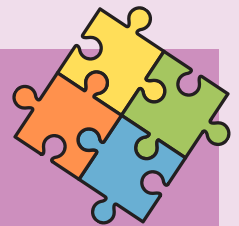

Onboarding Time

- 2-week set-up time from contract signing to functioning
- Permissions and data are customized based on the needs of your district
- Two initial virtual onboarding sessions included in cost

Integration

- Our current ERP integrations in production are Quickbooks and Sage Intacct
- For other accounting platforms, we own and manage weekly data transfer at no cost
- Future integrations prioritized based on needs of partners

Coming Soon...

Our platform is constantly evolving to support school finance leaders. New features under development include:

Future Fiscal Year Planning

- Robust scenario planning
- Forecast next year expenditures
- Allocate revenues to schools
- Synchronized inputs from school and department-level budget owners

Personnel Pay Management

- Detailed staffing breakdown
- Tracking of salaries, benefits, stipends, and other pay for all employees
- Projected next-year personnel costs based on salary schedules
- Equity comparisons across schools
