FLUXX

sage Intacct

ALIGN YOUR GRANTMAKING AND PAYMENTS
With the Fluxx + Intacct integration

Together, Fluxx and Intacct offer a valuable and extensive combination of services. This is the key to unlocking synchronous use-cases and innovation that in turn transforms the sleepy world of foundation and nonprofit technology.
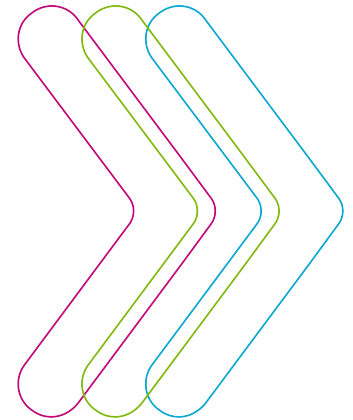

The Fluxx Grantmaker Intacct integration enables you to manage your grantee finance, data, and organizations within two deeply aligned workflows. With this integration you can connect your grants management workflow to your finance and accounting processes. Access your information from wherever, whenever.

WITH THE INTACCT INTEGRATION YOU CAN:

- Keep your request transaction workflow and billing information synced no matter where it changes

- Choose exactly which data fields and records to sync and update to your Intacct system

- Instantly flow from grant approval to payment processing, syncing key data and financial information along the way

THE GRANTMAKER INTACCT INTEGRATION IS FOR YOU

If you are already using Intacct for your accounting or are considering it for your organization, and want to leverage the best of both Intacct and Grantmaker.

BENEFITS

Automate your accounting processes so grantees can recieve money FAST.

Ensure accuracy by automatically populating grant and payment information.

Seamlessly track your payment data directly from Fluxx.
