

leaf.trade + sage Intacct

WHY IT'S GREAT:

Leaf Trade is now integrated with Sage to provide operational efficiency for our customers. This accounting integration allows customers to sync their Leaf Trade account with a Sage account and generate invoices for each order with the click of a button.

“We are very excited about the Leaf Trade & Sage integration. This partnership will save us over 40 hours per week on our accounting processes!” – Brian Ward, Chief Financial Officer at Verano Holdings, LLC

VALUE FOR LEAF TRADE & SAGE USERS:

Save time with your accounting processes

Reduce errors by eliminating manual data entry

Consolidate multiple entities in just minutes

Easily create and track transactions from all locations

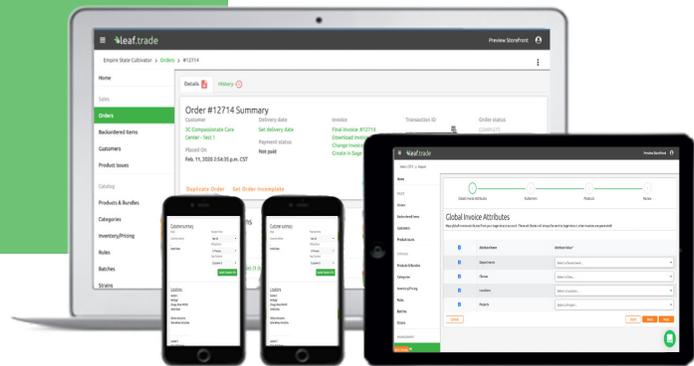

Manage different permissions, giving the right access to the right people

See year-over-year comparison reports & data

HOW IT WORKS:

1. User to set up attributes, 1 time mapping between Leaf Trade & Sage
2. One click to transfer invoice to Sage

HOW TO GET STARTED:

Sign up for Leaf Trade. Reach out to your Leaf Trade Customer Service representative today or **request a live demo.**

Current Leaf Trade users can reach out to **support@leaftrade.com** for more information.

Not a Sage user yet? **Click here** to fill out the company information on our referral form. A Sage Intacct representative will review your submission for accuracy and contact you with further details and next steps.
