# INTRODUCING FORTRESS.

A transformative technology platform that will change the way you think.

For the first time, experience real-time transparency into property performance data, a user-friendly interface, and the most powerful suite of pre-loaded tools ever developed. Fortress was built around the unique needs of property management companies, because it was built by property managers.

- Real-Time Data & KPIs
- Training & Ticketing Support
- Maximizes Automation
- Client-Centered Transparency
- Easy To Navigate
- 48-Hour Onboarding

“We had the unique opportunity to create a property management software solution from scratch — to provide real-time, transparent, automated information that reduces payroll costs and inefficiency while increasing asset valuation and cash flow. We grabbed that opportunity with Fortress and it is turning out better than we even hoped!”

-Kerri Davis, CEO
