

Straightsell are providers of self-managed B2B and B2C eCommerce websites that integrate with [Sage Intacct](#).

The Straightsell prebuilt cloud integration automates the data transfer to and from the website for:

Order Taking:

- Eliminate the time spent on manually taking and entering orders. Straightsell automatically transfers all orders and credit card payments placed on the website into Sage Intacct in real time... *Easy!*

Catalogue and Customer Management:

- Reduce the time spent managing your website catalogue, customer information and invoicing, simply enter the data to Sage Intacct and let Straightsell do the rest... *Easy!*
