

# The Future of Strategic Finance

We are the **fastest and most collaborative solution** connecting finance teams with stakeholders to surface insights, drive execution, and enable decision-making.

“I didn’t think it would be this easy to finish our monthly corporate reporting across our four legal entities”

 **Pieter Hugo**  
RevOps Manager

Abacum empowers **Finance** and **RevOps** teams to drive better and faster strategic decisions, making us the go-to solution for scaling companies.

## Automation

A huge leap in automation. Save days of manual labor by connecting Abacum to every system in your tech stack

## Collaboration

Seamless collaboration. Letting you partner and get work done with workflows, approvals, and people to drive strategic results

## Flexibility

Flexible by design. Always be one step ahead by creating dynamic and forward-looking scenarios – across any area of your business

## Insights

Make faster decisions. Get full visibility into all your financial and operational metrics with real-time reporting that uncovers opportunities

## Trust

Enterprise-wide data governance allows Abacum to be SOC2 compliant

# Superpowered finance teams

## Abacum powers growth and decisions across strategic finance teams

### Management Reporting

Get full visibility into every financial and operational metric with real-time reporting

Create templates with charts, tables, and variance reporting

### Budgeting

Shorten your planning cycle and spend more time on strategy

With permissions, statuses, tasks, and approvals, it has never been easier to collaboratively drive decisions

### Investor Reporting

Automate your reporting package to focus on the relationship

Invite your board to Abacum, share your growth plans, showcase your key metrics, and easily export everything as a slide deck

### Revenue Forecasting

Forecast your top line from the ground up. Understand your key business levers, create assumptions, and define dynamic variables

Drive predictable business outcomes

### Scenario Modeling

Always stay one step ahead

Multidimensional modeling that lets you forecast at the vendor level and quickly create new scenarios that answer any question

### Workforce Planning

Understand the impact of each past, present, and future headcount decision

Workforce planning with approvals, and deep collaboration with stakeholders. Plan across payroll, taxes, and benefits
