

Sage Intacct + Fyle = The tight-knit integration that your accounting team wants.

Fyle's integration with Sage Intacct is more than just pairing two platforms - we connected them to create an integration that is truly useful for Accounting teams.

- ✓ Truly integrated accounting
- ✓ Automatic data sync
- ✓ Shorter accounting cycles
- ✓ No delayed reimbursements
- ✓ No manual labour
- ✓ No accounting errors

Integration built from the ground up for Sage Intacct

No manual effort

With the automated flow of data between Fyle and Sage Intacct, save hours of your time, eliminate manual errors and improve your productivity.

Connected Systems

No need to jump between two different platforms to compare data. With this integration, the accounting team can interact and manage data from Fyle directly - saving time and effort.

Zero learning curve

Fyle is present inside apps that employees constantly use like G Suite, Outlook, Slack, and even SMS - making it easy for them to adapt and use Fyle without hours of training.

Truly automated accounting, explained

Intelligent expense coding

With this integration, your accounting team can stop manually mapping expense fields to Sage Intacct every time. Once you configure the fields in Fyle to the Sage Intacct counterparts, Fyle will automatically match the expense data and export it effortlessly.

Seamless two-way sync

Fyle exports all the expense data and receipts submitted by the employees automatically to Sage Intacct. When the expenses are reimbursed in Sage, they will be marked as paid in Fyle automatically - reducing back and forth.

Employee	Number	Process Date	Amount	Action
Theresa Brown	P/2020/09/R/13	Sep-25-2020	20.00	View
Brian Foster	P/2020/09/R/12	Sep-23-2020	45.00	View

EXPENSE TYPE	AMOUNT	DATE	DEPARTMENT	LOCATION
<input checked="" type="checkbox"/> Airfare	18.00	09/23/2020	200-Operations	100-US1
<input checked="" type="checkbox"/> Entertainment	27.00	09/23/2020	200-Operations	100-US1

Automated credit card reconciliation

The days of manual credit card reconciliation are over. Manage multiple card programs in Fyle with direct bank feed integrations and automatic corporate card reconciliation.

Support sync with multiple dimensions

Do you use multiple dimensions like Locations, Departments, Projects, or Class? You can sync these easily between Fyle and Sage Intacct to ensure seamless capture and reporting of contextual data.

Expense Information	Field Type	Status
Department	Multi-select	ON
Date of spend	Date	ON
Merchant	Text and numbers	ON
Employee ID	Text and numbers	ON
Check-in date	Date	OFF
Check-out date	Date	OFF
Breakfast	Yes/ No	ON
