

# Autonomous Finance

## The Complete Order to Cash, Treasury & Risk Management, and Record to Report Suite

To fully achieve financial transformation, the traditionally siloed processes and controls of the office of CFO must seamlessly stitch all processes in a connected, collaborative ecosystem.

With the right solution, CFOs can prioritize the benefits of financial transformation and go beyond with a data-driven platform to deliver an intelligent, open, and unified platform that can be extended and optimized to stay in sync with the current systems and business changes of tomorrow.

### Measurable improvements seen by HighRadius' customers

Lower DSO

Reduction in bad debt

Automation of repetitive task

#### Automate Order to Cash

- Proactive credit reviews
- Electronic invoicing and payments
- Zero-touch cash application
- Simplified trade/non-trade deductions
- Accelerated collections

#### Automate Treasury and Risk Management

- High accuracy forecasts with variance analysis
- Continuous global cash visibility
- Real-time cash management

#### Automate Record to Report

- End-to-End financial close automation
- Optimized account reconciliation
- AI-Powered anomaly management

Lightning-fast remote deployment in under 6 Weeks

Minimal IT dependencies with out-of-the-box Integration

Pre-packaged modules with Industry-specific best practices

Rapid deployment with Sage Intacct integrations including 100+ other accounting systems

### Trusted by the fastest growing mid-sized businesses

# Full Suite Ahead

HighRadius believes in the power of partnerships. Our partnership with Sage Intacct helps you add incremental value to your ERP by improving your process with intelligent automation by lowering DSO and DDO, optimizing working capital, fast-tracking financial close, and improving productivity and accuracy on a single cloud platform.

## Autonomous Receivables

**Cash Cloud:** Automate the cash application process end to end and achieve 95% straight-through cash posting and 100% savings in lockbox data capture fees.

**Credit Cloud:** Credit teams can mitigate risk globally with real-time visibility into portfolio risk, fast customer onboarding, multi-language credit applications, and reduced bad debt.

**Collection Cloud:** By leveraging AI, collectors can identify at-risk customers and automate the dunning process for low-risk customers, optimizing working capital and reducing DSO.

**Deductions Cloud :** Resolve deductions faster and reduce the overall Days Deductions Outstanding (DDO) by eliminating manual aggregation of backup documents.

**EIPP Cloud:** The HighRadius Electronic Invoice and Payment (EIPP) application automates and accelerates the invoice delivery process to facilitate faster collection of payments.

## Autonomous Treasury

The HighRadius Treasury Management Applications consist of AI-powered Cash Forecasting Cloud and Cash Management Cloud designed to support treasury teams from companies of all sizes and industries around the world to achieve end-to-end automation in their forecasting and cash management processes to deliver accurate and insightful results with lesser manual effort.

## Autonomous Accounting

The HighRadius Record to Report Suite offers AI-powered solutions for Financial Close, Account Reconciliation, and Anomaly Detection to streamline finance and accounting operations. Enable day-zero close, data accuracy, automated workflow, and task management through a disruptive approach to continuous accounting.

# The HighRadius promise of ROI

HighRadius is a leading Fintech company that provides the complete Accounts Receivables, Treasury and Record to Report solutions that is quick to set up and scales with your business. Our solutions leverage AI-based autonomous systems to automate credit, electronic invoicing and payment processing, cash application, deductions, and collections for companies of all sizes across industries. The result: better, more streamlined O2C operations.
