INTEGRATOR PLUS

INTEGRATION + INTELLIGENCE + INSIGHTS

[SALESFORCE]

A Salesforce integration with more efficency and less hassle.

Your Salesforce environment allows for custom objects, so why doesn't your integration with Sage Intacct?

Well, now it does.

IntegratorPlus for Salesforce is an **advanced, streamlined integration between Sage Intacct and Salesforce.** It goes beyond standard integration and allows users the flexibility to work within their system in a way that fits best for them.

IntegratorPlus for Salesforce delivers advanced, preconfigured integrations between Salesforce and Sage Intacct.

KEY BENEFITS

- Advanced integration with custom objects and supports custom logic
- Easy to use integration with custom data entry screens allows users to enter information through their Salesforce instance
- Integrates with Configure, Price, Quote, and Bill solutions
- Save time and money by streamlining processing, reporting, and transaction times
