

Foundation Cloud

Accelerate your organization's philanthropic impact with technology.

NPact's Foundation Cloud provides powerful donor advised fund, grant, and scholarship management software paired with a **customizable** community portal for non-profits and community foundations.

Best-In-Class Approach

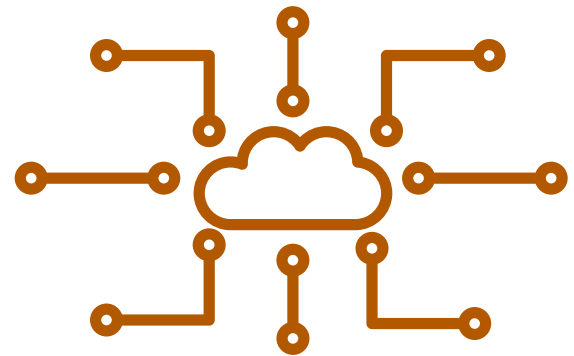

Foundation Cloud integrates with best-in-class solutions enabling your organization to leverage the most advanced and scalable CRM and financial accounting tools in the market. We integrate with **Blackbaud Raiser's Edge NXT, Financial Edge, Sage Intacct, Salesforce, and Virtuous** to provide options that meet all departments within your organization's needs.

Enhance Donor Experience

Community Portal is focused on making donating to funds and giving to non-profits easy and simple. The portal is **highly customizable** - reflecting your organization's logo and branding, while building a curated experience to engage with your donors.

Grow Your Grant, Scholarship, & DAF Programs

Increase grants going into your community! Build scalable and flexible workflows that support donor advised fund and grantmaking processes from end to end. Powerful bulk processing features allow for quickly processing high volumes of grants.

Share Programmatic & Community Impact Stories

Foundation Cloud Grants comprehensive reporting capabilities utilizing Microsoft Power BI supports creating **data visualizations and dashboards** that show your community impact and tell donor-powered stories.

Customer Support & Expertise

From our in-house support team to industry partnerships, NPact has created a solution that supports organizations **building meaningful and lasting impact** within their communities.
