

Revolutionize Healthcare Procurement with Direct Supply® DSSI™

Direct Supply® DSSI™ uses the power of world-class technology, cutting edge artificial intelligence and healthcare procurement expertise to turn data into strategic procurement solutions that take the cost out of healthcare.

Our Promise?

Increased cost savings, operational efficiencies and optimized procurement practices.

The Direct Supply DSSI Difference

Leveraging 35 years of healthcare procurement expertise, Direct Supply DSSI exemplifies the synergy of data, partnership, and technology by fostering a collaborative relationship between its procurement experts and the procurement professionals of provider customers. Powered by the industry-leading DSSI platform and proprietary artificial intelligence, Direct Supply DSSI equips healthcare providers with all the tools they need to drive cost savings, contract compliance and operational efficiencies.

The Direct Supply DSSI Platform: Cutting-Edge eProcurement Technology

Our robust eProcurement platform shines as the industry leader, offering ultimate visibility and control over spend across categories such as food, med surg, medical supplies, and beyond.

The DSSI platform provides customers with tools to drive positive procurement outcomes, including:

Comprehensive Spend Management:

With the synergy of the DSSI platform, artificial intelligence, and expert procurement consultation, our spend management solution stands unrivaled. Our team of procurement experts analyze provider spend data via the DSSI platform and identify potential cost-saving avenues through strategic supplier alliances and advantageous contracts.

Join the Direct Supply DSSI Revolution:

Leverage the power of Direct Supply DSSI to transcend traditional procurement boundaries and propel your healthcare organization towards operational and financial excellence.
