

# Wdesk for IPO

The new standard in IPO  
and business reporting

workiva

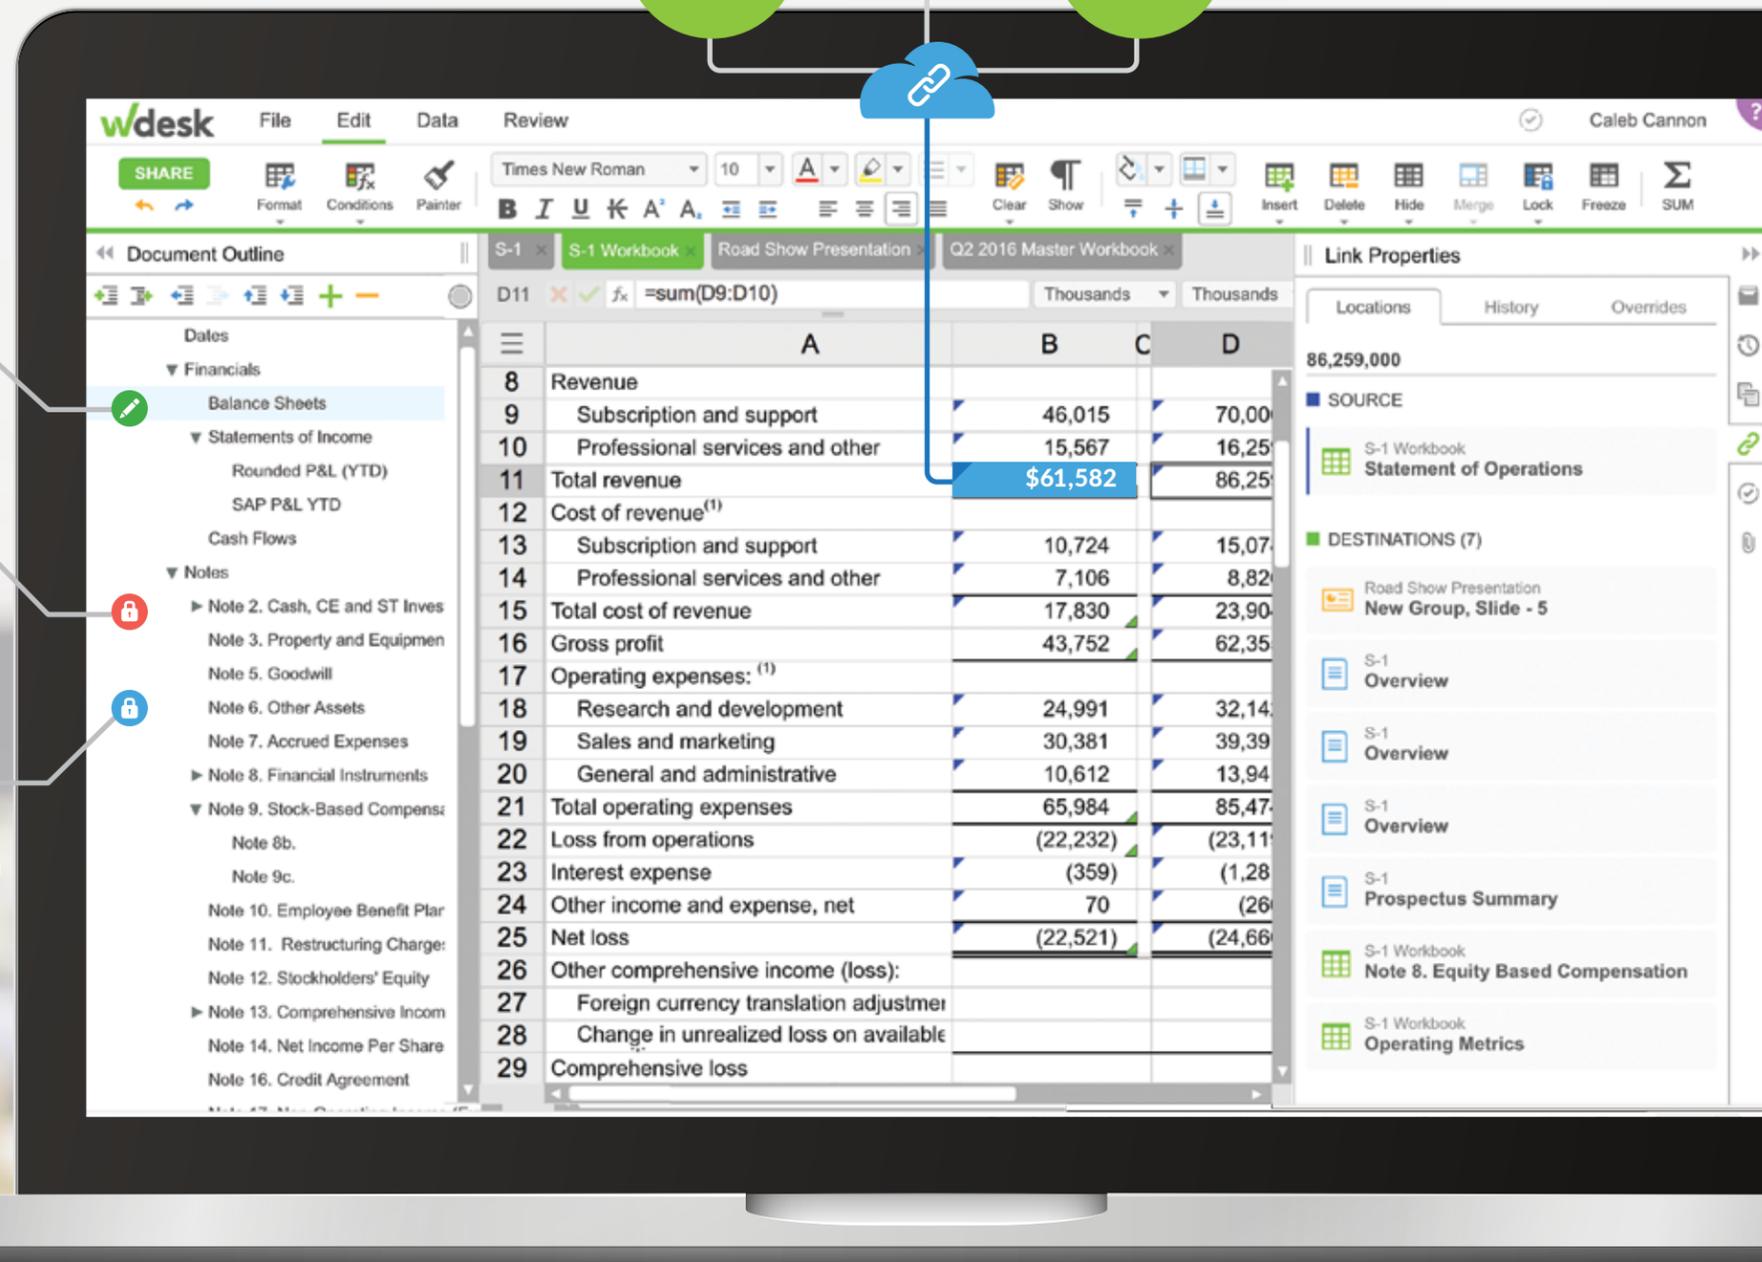

A cloud-based, faster, more secure IPO process—cost-effective from your S-1 to 10-K filings and beyond.

### Collaboration with control

- Connect data and context
- Integrate people and documents
- Make changes anytime, anywhere with Wdesk Mobile

### A single source of the truth

- Trust in your data from beginning to end
- Link data across documents and file types for real-time updates
- Leverage the S-1 work you've already done for future SEC filings

✓ Eliminates the need for financial printers

✓ Style guides

✓ No revision fees

✓ Direct XBRL filing

✓ Tasking and approvals

✓ Stakeholder collaboration

Wdesk for IPO enables the whole Working Group—legal, auditors, management, and board members—to work collaboratively, with control. A dedicated Customer Success Manager supports you through the entire process. Underwriter style guides update formats in seconds. Wdesk outputs to HTML, PDF, and Microsoft® Word and Excel.

# Innovative cloud reporting and data platform

Value beyond your IPO—support for FP&A, compliance, risk, audit, and SOX processes

Workiva is a leading provider of enterprise cloud solutions for improving productivity, accountability, and insight in business data. More than 2,600 companies trust Wdesk software for their business reporting needs.

## Our commitment to your success

Your Customer Success Manager will guide you throughout the drafting, review, and filing process, so you can file your S-1 with confidence. Leverage our experience in managing tens of thousands of SEC filings.

It's clear that Wdesk is the future of IPOs. We estimate Wdesk saved us more than half a million dollars preparing our initial public offering document and amendments.

—Richard Chin, CEO, Kindred Biosciences, Inc.
