Harness the Power of Financial Software Integration

With the integration of Intacct and Ascentis Payroll, general ledger data is automatically passed to Intacct as journal entries through a web services integration. Boost your payroll team's efficiency with journal entries that are automated, and accurate. As a result, payroll, expenses and taxes are accurately included as journal entries in Intacct to facilitate a faster accounting period close.

Elevate Your Organization with Ascentis HCM

Ascentis centralizes all employee activity and data into a single warehouse of "truth" that can be easily and quickly accessed, monitored and reported on. This knowledge protects organizations from erroneous charges and over-billing by insurance carriers, and limits risk and liability as a result of ever-changing and updating tax laws and health care legislation. This data flows seamlessly from HR to Payroll to Intacct.

User-friendly, online and mobile distributive technologies encourages increased employee engagement and satisfaction, which results in bottom-line benefits for the organization in terms of higher morale and better-managed turnover rates. Ascentis provides comprehensive employee data management that increases workforce visibility from "hire to retire," allowing companies to make better decisions and improve employee relations resulting in increased productivity and growth.

Flexibility

Ascentis is one of only a few full suite HCM providers that can 'unbundle' payroll. Integrating Intacct and Ascentis Payroll allows clients to adopt "pieces" of the solution as needed or desired.

Boost Productivity

Pre-built integration between Ascentis Payroll and Intacct streamlines accounting processes, saves time, and eliminates error prone manual manipulation of files. Users can payroll in real-time, providing 100% accuracy, flexibility and control. Instantaneous auditing and no transmission windows mean payroll processing time can be reduced by as much as 30%.

Enterprise Software without the Price

Our system is powerful and easy to use, and provides an "enterprise" experience for mid-market clients at an affordable cost.

Comprehensive Risk Management

Compliance risk is greatly reduced as critical employee data becomes trackable and immediately available with powerful reporting capabilities. Ascentis' automatic software updates ensure full compliance automation for revised federal, state and local tax laws and benefits regulations.
