

**VIVID  
REPORTS™**

*Vivid Reports has been providing unsurpassed Business Intelligence (BI) and Corporate Performance Management (CPM) software solutions since 1999. Our mission is to provide comprehensive software that organizes, transforms, and reveals valuable information. It can be used to drive decisions, recognize opportunities, and manage effectively.*

**VIVID  
REPORTS  
CPM**

**sage** Intacct

- Advanced drill-down analysis capabilities without the need for additional ERP licenses
- Drill-down to scanned images from document management system
- Budgeting and forecasting capabilities, including transactions, notes, and audit
- Ability to create new GL accounts and segments for budgeting purposes
- Budget consolidations and version control are a snap. Eliminate manual steps and template emailing
- Robust security and SOX compliance
- Built in currency conversion and support for multi-currency ERP
- Multi-Entity enabled, including different fiscal year-ends, COA, and ERP
- Web applications (UI) and cloud integrations
- Automated report distribution
- Advanced report check
- Web interface, in addition to Excel®, for viewing and budget entry
- Centralized definitions versus Excel® cells which provides control and consistency

**VIVID  
REPORTS  
FLEX**

*Add Vivid Flex to go beyond the G/L and integrate operational information directly into Excel®. Consider replacing SQL Reporting Services (SSRS), Crystal Reports, or Microsoft Access® with Vivid Flex!*
