

# SMART Hub for Sage Intacct

The fast and easy way for Sage Intacct users to pay suppliers and individuals

Now Sage Intacct users can effortlessly pay any invoice using any payment type – all completely integrated with Sage Intacct and their existing bank.

## SMART Hub

makes it easy for Sage Intacct users to make payments:

### Log into Sage Intacct

SMART Hub provides a pre-built integration with Sage Intacct

### Select the payment method

Make payments of any type from a single platform

### Choose your funding account

Pay suppliers from any existing bank account

### Decide when to initiate payment

Disburse funds instantly or schedule them for later

### Scrap the spreadsheets

Payments are auto reconciled in Sage Intacct in real-time

## How Sage Partners and Account Executives Benefit

### Revenue share opportunities

Get paid on eligible referrals.

### Stronger customer relationships

Meet increasing customer demand for payment solutions.

### Fast time to revenue

Make it easy for customers to migrate to electronic payments.

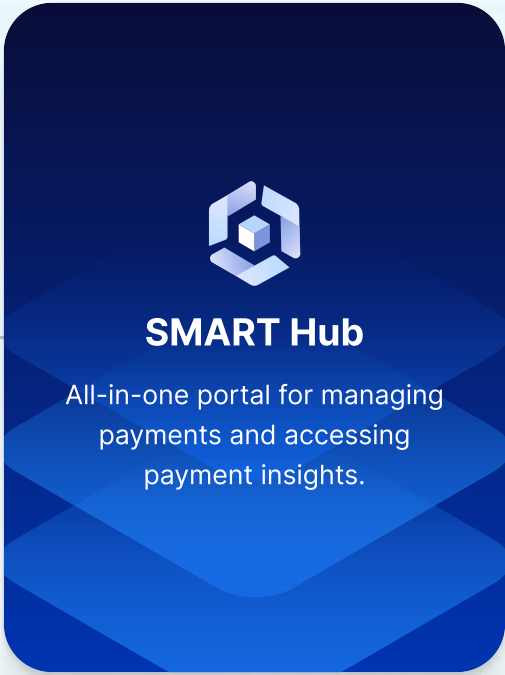

### SMART Disburse

A workflow-driven solution for disbursing funds of any type to any supplier or individual.

### SMART Collect

A workflow-driven solution for collecting receivables.

### SMART Exchange

An A2A solution that digitally connects buyers and suppliers through their banks and ERPs.

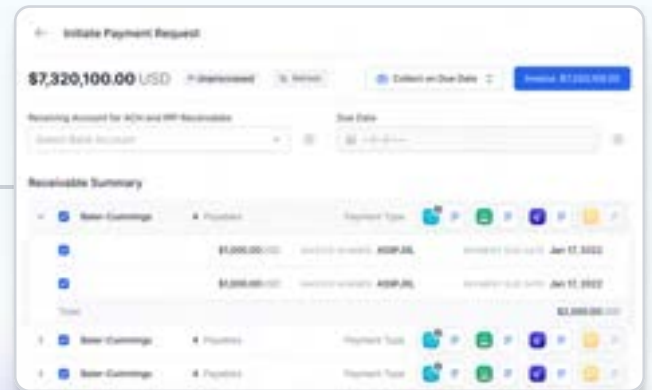

### SMART Finance

Built-in supply chain financing (SCF).

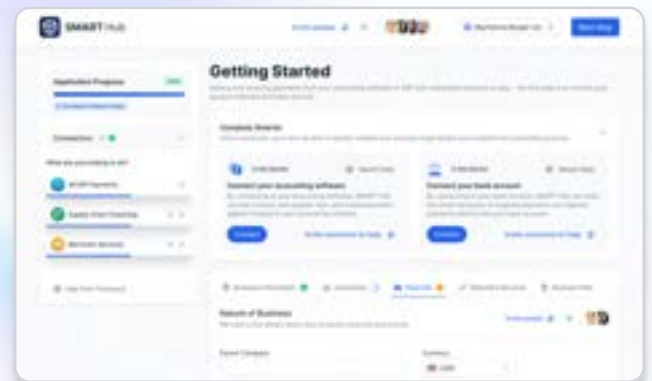

**It's never been easier for Sage Intacct users to make and manage payments.**

Multiple invoices can be paid with a single click.

All payments managed in a single place.

Sage Intacct users can get started fast.
