

Best-In-Class Integrated Solution Powering DAF & Grant Management

Foundation Cloud accelerates your organization’s philanthropic impact – it powers **efficient and scalable** donor advised fund management, grantmaking, and scholarship processes **while integrating with industry-leading CRM and financial accounting tools**. Our best-in-class approach provides a specialized solution, configurability tailored to your organization's needs, and advanced features and capabilities designed by industry experts.

Foundation Cloud Grants

NPact’s flagship cloud-based **donor advised fund and grant management platform** enables you to manage your organization’s lifecycle of grantmaking workflows, from grant and application creation to recommendation, processing, and payment.

Foundation Cloud Community Portal

Our community portal serves as a central hub for donors, applicants, advisors, board members, and reviewers to engage in philanthropy. It **empowers donors** to make grant recommendations, donate to their fund, manage investment strategies, and browse grant opportunities.

Fund Investment Tool

Designed specifically for **fund investment accounting**, FIT enables foundations and other non-profits to automate complex financial processes, including endowment fees, spending policies, income allocation, and rebalancing. FIT supports endowments, donor advised funds, and other fund structures, eliminating hundreds of hours of manual calculation for your finance team.
