

Cargas Energy to Sage Intacct Integration

When it comes to better business insight, nothing beats the integration between Cargas Energy's robust fuel delivery software and Sage Intacct's best-in-class accounting software. With this dynamic duo on your side, you can analyze your team's operational efficiency and key performance indicators daily to drive your business forward.

MONTH-TO-DATE INTEGRATION UPDATE

Interim month-to-date exports of the General Ledger can be used to move the latest financial data from Cargas Energy into Sage Intacct whenever it's needed. This on-demand capability takes full advantage of Sage Intacct's real-time insight into financial data and eliminates the need to wait for a month-end export for business insight. Once the Sage Intacct integration is installed, no additional setup is required to use the interim exports.

DASHBOARDS & REPORTING

No longer do you need to wait weeks after month-end to analyze company results. Now you can view daily dashboards and reports that highlight your performance with a combination of metrics, so you get the right information at the right time to make the right business decisions.

Business Software & Consulting

Cargas is an employee-owned business software and consulting company specializing in solutions for Accounting and Operations, Sales, Marketing and Service, and Custom Development.

Our Values

Our purpose is Shared Success for our employees, customers, owners, partners, and community. We were founded on the core values of teamwork, customer care, and employee ownership. At Cargas, software is our business, but your success is our purpose.

Our Team

Cargas is an employee-owned company—73% of our team owns Cargas stock. Our employees are invested in our company, and they're invested in your success. Our employee ownership means we don't plan on selling out anytime soon, we're built to last. A partnership with us is a long-term commitment.

Our Approach

We don't believe in one-size-fits-all solutions. Our primary goal is to understand your business so we can help you find the best software to fit your needs.
