The most successful businesses are those who surround themselves with employees, consultants, and advisors that are experts in their field. And while the world is full of talented individuals who can help you, there are a number of exceedingly accomplished CEO's and CPA's who have integrated their businesses with EMPLOYEEMAX Payroll & HR Solutions. This means that they're familiar with our comprehensive online payroll and HR services and they know how to use them to receive the most skilled and affordable services available.

With over 40 years of payroll experience and a leader in technical innovation, we know what our clients and partners expect and deserve. We are partners with our clients – Providing the most convenient and affordable Internet-based payroll and tax filing services in the industry.

A generation ago, calculating paychecks and preparing quarterly reports was the sole domain of accounting offices. As payroll became more complex, practitioners began to shy away and national providers rose to prominence. However, their lack of customer service and with little strategy to customize for their clients' needs puts EMPLOYEEMAX Payroll & HR Solutions as the top choice in the payroll industry.

Historically, clients either completed their payroll processing inhouse, or completely outsourced it to an accounting firm or a large payroll processor. Complete backroom payroll models make it possible for both the client and accountant to, in effect, utilize the payroll sources of a large organization and work out an arrangement for collaborating on payroll which provides value to the client and profitability to the accountant.

With one of the most robust Payroll/HR software Platforms in the industry (EmployeeMax), this allows our CPA/Accountant, Insurance, Banking & Financial partners the ability to focus on client solutions while providing the turnkey backroom payroll & tax filing functions.

Are you doing your payroll in-house? Trying to navigate the everchanging world of payroll and State & Local Taxes (PA ACT 32)? Are you outsourcing to another provider? Looking for that perfect payroll partner for your firm?

Maybe it's time to see what all the excitement is about! We Love Simple ... and we think you will too.

“The most successful businesses are those who surround themselves with employees, consultants, and advisors that are experts in their field.”

ROBERT CURRAN
President and CEO
