

WorkPlace
BY PAIRSOFT

PAPER SAVE
BY PAIRSOFT

Designed as an out-of-the-box, direct integration with:

Sage

Procurement, AP Automation, and Document Management

Automate your entire Procure-to-Pay process in one natively integrated system, maintain a centralized records database, move projects forward, gain real-time visibility and control, and deliver strong ROI across your organization.

KEY FEATURES

Requisition

Submit requisitions prior to creating POs using powerful tools that eliminate data entry errors, speed up order processing and track budget with alerts.

PunchOut Catalogs

Connect to your punch-out vendor catalogs in real-time – see what's in stock, current prices, and delivery times. Automatically transfers data onto the requisition for easy approval.

Payments

Eliminate paper checks for good with PairSoft Pay, integrated electronic AP payments that work with your existing bank and can generate rebates for your organization.

Powerful Vendor Contract Management

Add your vendor contracts to WorkPlace to view and control contract spend throughout the procurement process. Track expiration dates to renegotiate before the contract expires.

Upgraded OCR

Capture invoices in one click with PaperSave's optical character recognition (OCR), now with up to 100% accuracy. Once you capture, your data is auto-filled into Sage — no manual entry required.

WorkPlace Projects

Track spend against projects throughout the transaction process, including project manager approvals. WorkPlace Projects has out-of-the box reports to assist managing expenditures and budget reviews.

Dynamic Rule Engine & Approval Workflow

Implement any corporate approval rule you can imagine during the entire process, even at creation!

Sophisticated Audit Capabilities

Experience full visibility of what was changed, who made it, and when it was made.

Workplace Expense

Take control of the entire expense reimbursement lifecycle by creating, submitting, approving to pay, reporting, and analyzing expenses with full tracking.

Questionnaire Capabilities

Enhance communications, streamline entry, and prompt users to provide key information for specific charges, as a requirement or as an option.

Purchase Order Management

Automatically create and manage POs in a centralized location dedicated to the procurement team.

Guided Buying Catalogs

Enhance user shopping experience & control costs, using your own catalog, pictures, descriptions, and company selected items.

Request for Quote

Obtain the best deal & turnaround time. Submit and manage RFQs to multiple vendors. Compare quotes based on delivery date & price. Manually or auto award POs in seconds.

Advanced GL Budget Integration

WorkPlace integrates directly with Sage Intacct's GL budgets, including dimension-level budgets. View, warn, or stop expenses from occurring based on budget controls that you determine.

PaperSave Document Management **NEW!**

Attach, store, and review WorkPlace attachments in one location using our PaperSave Document Management interface.

Discover How Your Business Can Start Doing More With Less

Making a positive impact on your organizations, customers, and communities with paperless procure-to-pay solutions from PairSoft.
