

# For Community Foundations

## Online Integrated Database

*Integrated online software that works the way you do. Now and in the future. Community Akoya.net integrates all essential functions for Community Foundations, including CRM/contact management, grant and gift management, and multi-faceted fund accounting powered by Intacct, automating essential functions like joint investment allocation, fund fees assessment, and spendable allotment. No server or maintenance needed because Community Akoya.net is fully online!*

- › Manage Relationships: Contacts Tracking/CRM
- › Integrate with Microsoft Office
- › Streamline Your Grant Process
- › Automate Tasks
- › Powerful Reporting/Data Analytics
- › Comprehensive Fund Accounting
- › Dynamic Fund Management
- › Fundraising: Prospect and Donor Development
- › Gift and Pledge Processing

## Online Application

*Put the web to work with our flexible and efficient online application. Configure it to administer the entire grant and scholarship cycle, your way, including review. Use it with any data management software. Tailor it to your foundation's "look." Improve service and reduce costs with eGrant.net.*

- › Eliminate paper and streamline the complete process online
- › Receive scholarship references and transcripts electronically without student handling
- › Collect attachments electronically
- › Employ branch logic
- › Utilize an eligibility quiz
- › No per submission fees

## Online Donor Fund Information

*Provide up-to-the minute fund information to donors and/or fund trustees with 24/7 access via FundWeb.net. They can determine and produce their most meaningful results, thus reducing the need for paper statements. They can also make grant recommendations online. Fundweb.net integrated with your foundation's current website and works with Akoya.net, Pearl, FIMS, and other integrated foundation management software.*

- › Secure access to up-to-date fund information
- › Eliminate paper statements
- › Filter by date
- › Accept online donor grant recommendations
- › Integrate with your website

- › **Connected** to our customer: Foundation management from your point of view, not ours.
- › **Committed** to outstanding service: Superior service begins with our first contact and lasts a lifetime.
- › **Creative** design for inspired solutions: Flexible solutions created to work the way you do.

# Bromelkamp Software Companions

## Authorize.net

No need to retype information provided by your online donors. Our Bridge to Authorize.net retrieves donor and gift data for online contributions received through Authorize.net and downloads it directly into your Pearl or Akoya.net database.

## Geocoding

Enter a street address with ZIP code and your database looks up the rest for you, including the 9-digit ZIP, Congressional, House and Senate districts, latitude and longitude, Census Tract, and neighborhood information.

## GuideStar Charity Check

GuideStar Charity Check is the best way to use IRS records to verify exempt status and identify supporting organizations. Community Akoya.net can automatically check each recipient periodically and alert you to any problems or changes, and it saves proof in the database for your auditors. You don't even need to click!

## Patriot Act Compliance

Use this utility to efficiently communicate with Bridger Insight® terrorist list checking software which helps grant makers comply with The Patriot Act and an Executive Order which prohibit financial support to individuals who aid or support terrorism.

## Web Collector/Reporter

- › Use Web Collector to collect information from constituents, such as applications, mailing lists, and donations. The submitted information is imported electronically into Community Akoya.net, eliminating hours of manual data entry.
- › Use Web Reporter to send information such as grant information, event listings, and donor information from Community Akoya.net to your website in a format your constituents or others can use to search.
